# CAB-502- VGA to DVI 1.8m Cable

Features & Specification:

Convert any VGA into perfect DVI video signal. This means you can connect any computer that outputs VGA or any other video player that outputs component video (red, green, and blue). This converter includes a scaling capability that will fit numerous VGA to your DVI TV. This ensures easy set-up. You'll never have to worry about fiddling around with your computer's resolutions just to fit your DVI TV, only to change it back again when you want to use your computer monitor.

Support:

VGA	640 x 480 at 60/72/85 Hz
SVGA	800 x 600 at 56/60/72/75/85Hz
XGA	1024 x 768 at 60/70/75/85Hz
WXGA	1280 x 800 at 60Hz
SXGA-	1280 x 960 at 60Hz
SXGA	1280 x 1024 at 60/75/85Hz
WXGA	1360 x 768 at 60Hz
WSXGA	1440 x 900 at 60Hz
UGA(UXGA)	1600 x 1200 at 60Hz
